Subject: Microsoft Settlement

I would like to add my personal voice in OPPOSITION to the currently proposed settlement in the case of U.S. vs. Microsoft. As an IT professional and a citizen, I feel that the settlement as it is currently drafted does not address the critical issues of the case, will not put an end to the offensive, condescending, and criminal behavior of the defendant, and does not serve the interests of either my industry or the citizenry of this country.

Sincerely,

Michael W. Shaffer
